LINCOLN'S HEMP ACREAGE

Many Farmers Are Planning to Plant This Crop Instead of Usual Amount of Tobacco.

Lincoln county's hemp production this season bids fair to be greatly increased, says C. Hays Foster of Stanford, who buys hemp here for the firm of E. F. Spears & Son, of Paris. Mr. Foster thinks that the determination of Lincoln county farmers to raise more hemp has been influenced largely by the tobacco situation this season. He says that his firm is now paying eight and a half cents a pound for this year's crop. Last year there were something like 150 or 200 acres planted to hemp in Lincoln, while this year's acreage will go over 400 and may reach 500 acres. A number of the prospective hemp growers who have already purchased seed for this season's planting and the acreage they will put in are:

Sam Holtzclaw, on the Josh Jones John Horton, Stanford, two acres.

James McCormack, Hustonville pike, 40 acres. Frank Bobbitt, near Turnersville,

W. P. Logan, near Rowland, two

C. E. Tate, Stanford, 12 acres.

A VALUABLE SUGGESTION

Important to Everyone

It is now conceded by physicians that the kidneys should have more attention as they control the other organs to a remarkable degree and do a tremendous amount of work in removing the poisons and waste matter from the system by filtering

During the winter months especially, when we live an indoor life, the kidneys should receive some assistance when needed, as we take less exercise, drink less water and often eat more rich heavy food, thereby forcing the kidneys to do more work than Nature intended. Evidence of

more serious trouble. Many physicians claim that an herbal medicine containing no min-In 1914 the American railroads erals or opiates has the most healing pound that has had most remarkable

Mr. Meade Gill, age 25 and Mis-Zula Mabrian Naylor, age 23 drove to Stanford last Wednesday where they were united in marriage by Rev. M. D. Early at the Baptist parsonage. Mr. Gill is the oldest son of Mr. and Mrs. S. N. Gill, and is an energetic and industrious young man and a is a daughter of Mr. and Mrs. John Naylor, of this place, and is as pretty as she is popular. Besides heing handsome and a lady whom everyone likes she is a nice housekeeper and will make an excellent companion for the man of her choice. The bride was beautifully dressed in blue and never looked handsomer than on her wedding day. After the ceremony, the happy couple drove to the home of Mr. and Mrs. William Naylor, south of Stanford, where they found a nice wedding supper awaiting them. We join their host of friends in wishing while flows of ice were floating down them a long and happy life together, and may they never know sorrow.

TO THE TOBACCO GROWERS OF LINCOLN COUNTY:-

We have heard some quiet talk, the kind, that says "Jon't quote me" relative to some house somewhere getting 'just a little more for tobacco than the old reliable MADISON HOUSE." Well we can hardly blame the fellow that makes such a statement, asking not to be "quoted." We want to be quoted however, and we want the other fellow to read the prices-actual prices some crop lots have brought with us this season. Don't worry by saying these prices aren't real, for if you do, you naist again ask the fellow that you told that to keep it on the "Q. T." "Truth needs no apology"-you can quote "anything we say to any hody." You don't have to "keep it quiet"-go tell all your neighbors and all your friends. We want em all to know, just facts-only facts represented by "dollars paid for tobacco." This is worth a "whole barn of that cheap stuff so freely used and strange as it may seem, it

Oil Treatment for **Stomach Troubles**

A simple prescription made up of a combination of pure vegetable oils is producing wonderful results for sufferers from stomach, liver and intestinal troubles. The remedy, which is said to have originated in France, where it has been used for years by the peasantry, was introduced into this country by George H. Mayr, a leading Chicago druggist, who cured himself of severe stomaeh, liver and intestinal troubles by ts use. Those who have used it say the first dose is sufficient to convince any one of its remarkable merit, and that within twenty-four hours the sufferer feels like a new person. This medicine, which has become known as Mayr's Wonderful Remedy, is sold by leading druggists everywhere with the positive understanding that your money will be refunded without question or quibble if ONE bottle fails to give you absolute

Don't Wait Till You're All Bunged Up. Use S. S. S. Now.

If you will go into any first class store and get a bottle of S. S. S. you are on the way to getting rid of Catarrh. But don't let anyone work off that old trick of something "Just as good."

S. S. S. is taken into the blood just as naturally as the most nourishing food. It spreads its influence over every organ in the body, comes through all the veins and arteries, enables all mucous surfaces to exchange inflammatory acids and other irritating substances for arterial elements that effectually cleanse the system and thus out an end to all catarrhal pollution. S. S. S. cleans out the stomach of mucous accumulations, enables only pure, bloodinaking materials to enter the intestines, combines with these food elements to enter the circulation, and in less than an hour is at work throughout the body in the process of purification.

The medicinal components of S. S. S. are relatively just as essential to well-

OTASH

is food for thought as well as for crops this year.

When shipments were interrupted by the war, it was estimated that there was enough Potash on hand in the United States to provide two and three per cent Potash in mixed fertilizers for this spring's trade. Some manufacturers had more than enough for these percentages.

Since then minor sources of Potash have been fully utilized, and additional shipments from the usual source are still being received. The supply is below normal, but this need not prevent farmers

securing some Potash in their fertilizers, nor should it lead farmers to decide not to use fertilizers. There is no reason to return to the out-of-date goods without

Potash, although some authorities may try to "wish" them on us. We have not used enough Potash in the past. The largest annual import of Potash was only one-seventieth of the Potash taken from the soil by our 1914 corn crop and only one-fifteenth of the Potash lost every year in drainage water.

Spring crops use from two to ten times as much Potash as Phosphoric Acid. Get as much Potash in the fertilizer as possible. A few firms are offering to furnish from four to ten per cent. There is no substitute for Potash. It may be harder to get just
